B-COGNITIVE
SYSTEMS

CAPABILITY STATEMENT · UPDATED OCTOBER 2026

Decision advantage in the original language.

B-Cognitive Systems is a defense and intelligence firm built on three pillars: language intelligence, cybersecurity, and autonomous systems. Language intelligence is operational today, delivering native-language analysis on Iran, Afghanistan, Pakistan, and Central Asia; cybersecurity and autonomous systems are coming soon. Founded by a language analyst with 16 years of language work, including language analysis, interpretation, and political-military experience supporting US government engagement in Afghanistan.

CORE COMPETENCIES · PILLAR I: LANGUAGE INTELLIGENCE

OSINT analysis
Native-language open-source intelligence, delivered as sourced assessments with confidence levels.

Technical DOCEX
Triage, gisting, and exploitation of foreign-language documents and media.

Cultural & pol-mil advising
Context on tribes, factions, and how actions will be received.

IO & STRATCOM analysis
Narratives of adversaries, proxies, and armed groups across regional media.

Doctrine & policy interpretation
Iranian nuclear, missile, and drone doctrine in original-language sources.

Expert language support
Translation, interpretation, and transcription of sensitive, high-context material.

AREAS OF EXPERTISE

- **Af-Pak region and armed groups** active across Afghanistan, Pakistan, and Central Asia (core specialization)
- **Iran's nuclear weapons program**
- **Iran's missile and drone capability**
- **Iran's active proxies** and regional messaging networks

PILLARS II & III · COMING SOON

- **Cybersecurity** COMING SOON — cyber threat intelligence in the adversary's language: claims, lures, and language artifacts in Farsi, Russian, Pashto, and Urdu.
- **Autonomous systems** COMING SOON — the language layer for drones and robots: multilingual voice command, speech and text understanding, and regional-language training data.
- **AI language data & evaluation** COMING SOON — expert data and evaluation in low-resource regional languages.

DIFFERENTIATORS

- Analysis starts in the original language, not someone else's translation.
- Rare coverage of Farsi as spoken in Iran, Afghanistan (Dari), and Tajikistan (Tajiki), plus Pashto, Urdu, Punjabi, Sindhi, Uzbek, and Russian.
- Need-to-know handling of materials; NDAs available; responses within one business day.
